BOEING

T-7A
RED HAWK

ADVANCED PILOT TRAINING SYSTEM

![Boeing logo] **BOEING**   **T-7A**
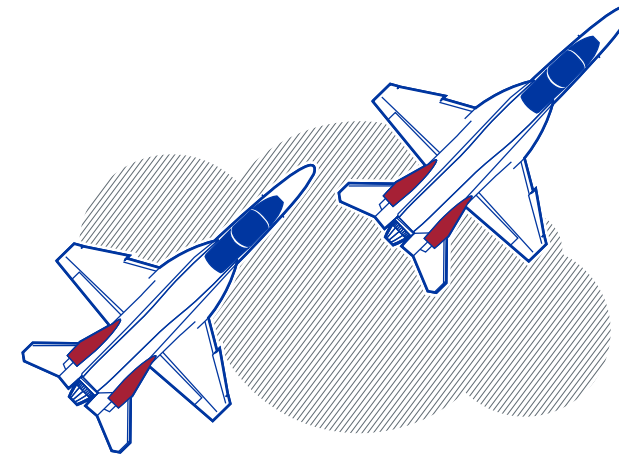

STATE-OF-THE-ART TRAINING SYSTEM DESIGNED TO EVOLVE

Purpose-built to adapt easily to people, software and systems

Open Systems Architecture facilitates the integration of additional capabilities

LOW ACQUISITION COSTS, LOW OPERATING COSTS

Maintenance-friendly design

Common subsystems with legacy platforms

Leverages existing infrastructure and supply chain

REALISTIC TRAINING

Lifelike simulation, interactive lessons and adaptive, computer-based lessons

Embedded and live virtual constructive training for download and offload training tasks

**Realistic training** solutions to better prepare pilots

FIGHTER PERFORMANCE AND CHARACTERISTICS

Fighterlike maneuverability

Fly-by-wire flight controls, high angle of attack and sustained G capabilities

Advanced cockpit, flexible avionics and a reconfigurable large area display

Twin-tail design

READY TO EVOLVE AS TECHNOLOGIES, MISSIONS AND TRAINING NEEDS CHANGE
