

**2008 IAM Negotiations  
Questions & Answers for Boeing employees**

**PAYROLL**

**Q. How will employees be paid during the strike?**

- A. All net paychecks for represented employees will be mailed to the address of record. If an employee's check is set up for direct deposit, normal direct deposit processing will continue and the pay advice will be mailed home. Employees participating in online e-stub will have their pay advice mailed home during a work stoppage and will revert back to online once back to work.

**Q. How is time charging handled for union employees during a strike?**

- A. All union employees will have their labor category changed to non-standard (N) on the first day of a work stoppage to prevent system-generated time. Employees reporting for work will be required to input their time and labor daily. All labor categories will revert back to standard when the work stoppage is over.
