

MAINTENANCE PERFORMANCE TOOLBOX

LIBRARY MODULE

The Library module stores aircraft maintenance information in a variety of data-wealthy formats and allows advanced navigation and search capabilities. This module offers a single source of information for all fleets by consolidating manufacturer and customer documents.

EVERY DOCUMENT YOU NEED IS NOW AT YOUR FINGERTIPS

The Library module stores major maintenance documents in XML format:

- Intelligently tagged for use by external applications.
- Extensive use of hyperlinking for navigation.

The Library module allows you to

- Manage scheduled, temporary, and customer revisions.
- Search across the entire Library, within one or more documents.

Key benefits

- Single source of information for all fleets.
- Intelligent graphics linked to work instructions.
- View tail-specific documents through filtering.
- Immediate application of original equipment manufacturer (OEM) revisions.
- Incorporation of operator and supplemental documents.
- Index and search of third-party documents.
- Structured, machine-readable documents (XML) for use by external applications.

Key notes

- Required by the Systems, Authoring, Training, and Tasks modules.
