

MAINTENANCE PERFORMANCE TOOLBOX

TASK CARD MODULE

The **Tasks module** enables the planning, definition, and management of task and job cards. The module helps you customize your requirements and task card deck to create a maintenance program that exactly matches the specific maintenance needs of your fleets.

SIMPLIFY CUSTOMIZATION OF MAINTENANCE PROGRAMS

The **Tasks module** helps you to

- Keep task cards in synch with Aircraft Maintenance Manual (AMM) revisions.
- Maintain complete audit trails for regulatory compliance.
- Organize and maintain task card collections to support maintenance program requirements.
- Create and assign task cards to specific aircraft, locations, and schedules.
- Transmit task cards to organizations, both internal and external.

Key benefits

- Elimination of duplicate data entry through synchronization of task cards with AMM.
- Better transparency of regulatory compliance through consolidated maintenance program tracking and reporting.
- Greater predictability and on-time performance through integration of work instructions with planning and materials management systems.
- Increased aircraft availability through customized maintenance program.
- Improved productivity through information sharing with maintenance, repair, and overhaul (MRO) partners.

Key notes

- Requires the Library module.
