3. Details of the Conditions of Use and Airport Charges at Heathrow, Stansted, Edinburgh, Aberdeen and Southampton are available on the BAA internet site at www.baa.com/cou
4. These charges exclude handling or apron services which are provided by independent handling agents.
5. The Unfair Contract Terms Act 1977 affects terms of notices which exclude or restrict liability for negligence.  - a) detain pending payment either:
 - (i) the aircraft in respect of which the charges were incurred whether or not they were incurred by the person who is the Operator of the aircraft at the time when the detention begins, or
 - (ii) any other aircraft of which the person in default is the Operator at the time when the detention begins, and
 - b) if the charges are not paid within 56 days of the date when the detention begins, sell the aircraft in order to satisfy the charges.”

Airport Systems

2.3.2 Operators will use or make suitable arrangements for agents to use any common user systems installed at the Airport, including IT systems such as Airport Operational Systems, check-in desks, and hold baggage search and handling systems. Charges for such systems are included in the Airport Sundry Charges publication.

Ground Handling

2.3.3 Operators will appoint an Airport licensed handling agent, or where the Operator is self handling will agree to the standard ground handling licence conditions of Glasgow Airport for all ground handling activities as determined by the EU ground handling directive. This is a requirement for all flights including general aviation, cargo, military and helicopter movements. Any exception to this is at the discretion of the Airport Managing Director.

Policing

- 2.3.4 Where any flight imposes an additional policing or security requirement over and above the services normally provided by the Airport, the Managing Director of the Airport Company may require the Operator to pay a charge equivalent to the additional identified cost of security provision for that flight.

2.4 Payment

- 2.4.1 The Operator shall pay the appropriate charges for landing, taking-off, parking of an aircraft, as set out in Section 10 Schedule of Charges. The Operator shall also pay for Air Navigation Services Charges incurred as outlined in Section 11 – Schedule of Air Navigation Services Charges. The Operator shall also pay for any supplies, services or facilities provided to him or to the aircraft at the Airport by or on behalf of the Airport Company at the charges determined by the Airport Company. All charges referred to in this paragraph shall accrue on a daily basis and shall become due on the day they were incurred and shall be payable to the Airport Company on demand and in any event before the aircraft departs from the Airport unless otherwise agreed by the Airport Company (which agreement may be withdrawn at any time at the discretion of the Airport Company) or unless otherwise provided in the terms for payment included in the invoice for such charges.
- 2.4.2 Payments shall be made without deductions (including taxes or charges). If the applicable law requires any tax or charge to be deducted before payment the amount shall be increased so that the payment made will equal the amount due to the Airport Company as if no such tax or charge had been imposed.
- 2.4.3 All sums payable to the Airport Company are exclusive of VAT which shall, where applicable, be paid by the Operator in addition at the rate in force at the relevant tax point.
- 2.4.4 All sums due which are not paid on the due date shall bear interest at the annual rate of 3% over the current Bank of England Base Rate (subject to a minimum annual interest rate of 6%), calculated on a daily basis from the date when such sums were due until the date of payment (both dates inclusive).
- 2.4.5 Where an aircraft Operator has not used the Airport in the previous 12 months (as calculated from the date that the Operator proposes to commence operations), the Managing Director may at his discretion, require a deposit to be lodged with the Airport Company before flights by that Operator commence. Any such deposit shall be paid to the Airport Company and shall be in such a sum as the Managing Director shall consider to be equivalent to the anticipated charges that the aircraft Operator shall incur (based on the anticipated number and type of flight planned) for 3 months of operations by that Operator. If the Operator ceases to operate flights from the Airport the Managing Director shall refund the deposit, subject to the right of the Airport Company (which is hereby reserved) to set off against any such deposit any appropriate charges that have not been settled in accordance with the above provisions.
- 2.4.6 If the Airport Company is not reasonably satisfied that an Operator has capacity to meet its on going financial obligations under these conditions or does not adhere to the payment terms, then the Airport Company may require a cash deposit or an unconditional bank guarantee in an acceptable form. This deposit or bank guarantee shall be for an amount equal to the Airport Company's reasonable estimate of the airport charges the Operator is likely to incur over a 3 month period.
- 2.4.7 If an Operator fails to adhere to the payment terms on more than one occasion or an Operator's deposit and/or guarantee is exhausted then the Airport may require you to pay your Airport Charges weekly in advance.

- 2.4.8 Under the Civil Aviation Act 1982, the Airport Company has the power to detain aircraft where default is made in the payment of charges outlined in Sections 9 and 10. The power relates to aircraft in respect of which the charges were incurred (whether or not they were incurred by the person who is the Operator of the aircraft at the time the detention begins) or to any other aircraft of which the person in default is the Operator at the time the detention begins.
- 2.4.9 The Operator shall not without the express written consent of the Airport Company be entitled in respect of any claim he may have against the Airport Company or otherwise to make any set off against or deduction from the charges provided for in these conditions. He must pay such charges in full pending resolution of any such claim.
- 2.4.10 Any queries relating to invoices should be logged with the Credit Control Department at the BAA Business Support Centre within 10 days of the invoice date. If an Operator disputes an invoice issued in connection with these conditions, then the Operator must complete the Dispute Notification Form at Appendix 1 and lodge it within 10 days of the matter arising along with evidence of the matter in dispute. Contact numbers for the BAA Business Support Centre are shown on our invoices and statements.

- 3.1 "Charges on Departure" are set out in the Schedule of Charges. The weight charge on departure will be assessed and payable on the basis of the Maximum Total Weight authorised by the Airport Company on 1st April each year (see paragraph 1.11). The combined weight charge plus passenger charge is subject to the payment of a minimum charge referred to in paragraph 8. For the purposes of Airport Charges Eire is categorised as Domestic.
- 3.2 Air Navigation Services Charges are payable on arrival and will be assessed and payable on the basis of the Maximum Total Weight authorised by the Airport Company on 1st April each year (see paragraph 1.11).

4. Parking Charges

- 4.1 The charges for parking of aircraft at the Airport are set out in the Schedule of Charges. These charges will be assessed and payable on the basis of the maximum total weight authorised (see paragraph 1.11) and total time parked. For the purpose of these charges, where parking follows immediately after a landing, parking charges will be charged from the time of landing to the time of take-off less a discretionary allowance for taxiing where actual time on stand is not available.
- 4.2 The Managing Director may at any time order an aircraft Operator either to move a parked aircraft to another position or remove it from the Airport. Failure to comply with the order within the period specified in it will render the Operator liable to a special charge, equivalent to eight times the standard parking charges set out in the Schedule for every hour or part of an hour during which the aircraft remains in position after the period specified in the order has expired.

5. Rebates

5.1 Short Distance Flights

Airport charges (with the exception of Air Navigation Charges) for movements by fixed wing passenger flights on short distance scheduled flights will be levied at the following rates:

- 5.1.1 Where the immediate destination is within Scotland, including flights which take-off and land at the same airport with no intermediate landing, the weight charge will be reduced by 65%.
- 5.1.2 Where the immediate destination is outside Scotland but is not more than 250 statute miles distant from the airport of take-off, the weight charge will be reduced by 26%.
- 5.1.3 Fixed wing flights carrying domestic passengers departing from a Scottish Airport which have a final destination less than 100 statute miles from the airport of origin will be entitled to a rebate to the passenger charge of 50%.

5.2 Double Stop Flights

Flights which depart from the international facilities at a Scottish airport owned by BAA Limited and have originated at the international facilities of another UK airport, or will be making an intermediate stop at another UK airport for the sole purpose of picking up or setting down additional passengers or cargo, will have the weight charge on departure reduced by 50% at the airport.

5.3 New Services

Operators of air transport services at Glasgow Airport may apply to the Managing Director of the Airport Company for rebates for the operation of new services to new destinations or for increased frequencies to existing destinations. The decision by the Managing Director as to whether to grant such rebates shall be absolute.

- 5.3.1 Operators of air transport services from Glasgow Airport to new International destinations may be granted an introductory rebate of up to 50% of Airport Charges during the first 12 months of service, up to 30% of Airport Charges for the following 12 months and up to 10% of Airport Charges for the 12 months in the third year, depending on the frequency of flights.

5.4 Positioning Flights

Take-off charges on aircraft positioning empty for or after commercial air transport movements may be rebated. This will be granted when it is considered to be in the interest of the Airport to encourage the development of traffic. This rebate will not be granted on flights resulting from a diversion because of bad weather.

5.5 Training Flights

In the case of a flight carried out for the sole purpose of training or testing flying personnel, rebates of 70% of the amount of the charge calculated in accordance with the Schedule may be granted.

5.6 Aircraft Parking

In the light of particular circumstances at the Airport, the charges set out in the Schedule in relation to the parking of aircraft at certain times and periods, or on certain parts of the airport may be rebated.

5.7 Reduced and Own Terminal Facilities at Glasgow Airport

5.7.1 Operators of air transport services by non-fixed wing aircraft not utilising the usual range of terminal facilities (such as those Operators providing their own facilities for the processing of passengers) may be granted a rebate on part of the Airport Charges.

5.8 Where a flight qualifies for more than one rebate as set out in sections 5.1, 5.2, 5.3, 5.4, 5.5 and 5.6 the higher rate of rebate only will apply.

5.9 Prior written applications for rebates set out in sections 5.2, 5.3, 5.4, 5.5, 5.6 and 5.7 should be made to the Managing Director.
