

## MORE THAN BIG NEWS, A BIG ADVANTAGE.

**Boeing is proud to announce the launch of the new Boeing 747-8 Freighter.** And proud to announce both Cargolux and Nippon Cargo Airlines as launch customers. With its expanded capacity, and the most fuel-efficient commercial airplane engines in the world, the new 747-8 F carries more volume on every flight while significantly reducing costs. An enormous advantage for freight operators no matter where the route or what the load.
