

# Earth Day 2005 Parking Plan

## **Buses**

- Buses that are not staying (loading & unloading only) must enter from Zoo Blvd. *\*This is for safety purposes of entering & exiting the vehicle. Buses coming from Windmill Rd. will have to be re-directed.*
- Buses that will be staying must park in the far east parking lot where they will load and unload.

## **Special Needs**

- Vehicles for special needs students must enter from Zoo Blvd, or they will be redirected.
- Loading & unloading will occur at the “Bus Unloading” area (see map).

## **Passenger vehicles**

- Passenger vehicles may enter from either Zoo Blvd or Wind Mill Rd.
- Passenger vehicles are to be routed to the General Guest Parking lot.

### **Construction Areas**

All closed buildings and construction areas will be barricaded and roped off. No vehicles will be permitted. See map for closed area.

### **Contingency Plan**

In the event that the General Guest Parking and the East Parking Lot becomes full, there is a Overflow Parking Lot located at the far North entrance. General traffic will be directed to this location when the Sedgwick County Zoo Security supervisor makes that determination.
