Subject: Mesa Helicopter Process Specification, HP 8-5, *Identification of Parts and Assemblies*

Dear Valued Supplier,

HP8-5, Revision Y, paragraph 3.2.1 limited suppliers to using the manufacturer's Commercial and Government Entity (CAGE) Code instead of any supplier identification on all components, subassemblies and assemblies **except** for source control or specification control items. Revision AB then required implementation to occur within 12 months of the issue date, July 17, 2003. As many purchase order contracts via our Manufacturing Buy Plans are tied to previous revisions of HP8-5, this letter hereby instructs you to implement this change to the use of CAGE code within 12 months of this letter, March 22, 2005.

Please see the following "Engineering Order" pertaining to this notice
