

Stephen L. Winkler
Director
F-15 Production Programs

Steve Winkler is the Director for F-15 Production Programs for Boeing Military Aircraft and Missile Systems. He is responsible for all aspects of program performance for the USAF F-15E Program and the Korean F-15K Program.

Prior to this assignment, Winkler was the Program Manager for the Boeing's Joint Helmet Mounted Cueing System (JHMCS). Other former positions include program management assignments for the USAF F-15E, Saudi Peace Sun IX (F-15S) program, Israel Peace Fox VI (F-15I) program, and on international aircraft sales campaigns.

Winkler joined McDonnell Douglas in 1983, serving in various Avionics Engineering positions before entering Program Management. Prior to that he worked for Monsanto.

He holds a bachelor's degree in Electrical Engineering from Washington University and a master's degree in Engineering Management from the University of Missouri at Rolla.

Winkler was born Oct. 6, 1959, in Saint Louis, Missouri. He is married and has two children.
