Jeppesen Dispatch Training Portfolio

Jeppesen Training Services offers a wide range of programs that are designed for commercial, corporate, and military aviation operators who wish to standardize their operational control environment and improve employee effectiveness.

Jeppesen offers a comprehensive array of dispatch courses, from fundamental to advanced skills training. Programs can be tailored to fit different operational needs, including training on specific aircraft types, operations specifications, and specific tools used on the job such as electronic charting, flight planning, weather analysis, airport analysis, and more.

Courses

- ICAO English
- Airline Operations Control Indoctrination (FOM-1)
- FAA/NAA Dispatcher License (FOM-2)
- Takeoff and Landing Performance (TLP)
- Charts and Navigation Workshop (CNW)
- Airspace Systems Workshops (ASW)
- International Flight Planning (IFP)
- Dispatch Resource Management (DRM)
- Extended Range Operations (ETOPS)
- Dispatch Recurrent Training (DTR)

Benefits

- Jeppesen is recognized as providing best-in-class training for operational control personnel.
- Jeppesen's worldwide course delivery options offer the most convenient and cost-effective training solutions.

Value

- Increased departmental performance through a series of quality employee training programs.
- Customized training courses will allow for more focused training, thus reducing the cost of unnecessary training.

Prerequisites

- Proficiency in English
- Visa (if applicable)
- 21 years of age

Training locations

Dispatch training courses are available at Jeppesen, Boeing, and partner facilities worldwide.

Price

For price and detailed course information, please visit us at www.jeppesen.com/dispatchtraining.

Special rates are available for operators who are sponsoring more than one student.
