# Landing Gear Overhaul and Exchange Program

Managing a landing gear overhaul is costly and time consuming. There are better ways to manage the contract, schedule and overhaul of your asset. Boeing's Landing Gear Overhaul and Exchange Program offers owners and operators a better way to manage the replacement and overhaul of their landing gear.

---

A Proven, Cost-Effective, Flexible and Inclusive Landing Gear Solution

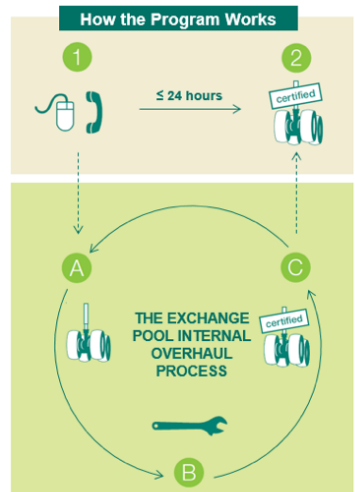

The Boeing Landing Gear Overhaul and Exchange Program helps you manage your landing gear assets and maintenance requirements.

### Program benefits:

- Improved landing gear overhaul and exchange schedule commitments
- Eliminate the need to contract, schedule, and manage the overhaul process
- Three or four year warranty on all parts (four years for new parts)
- Incorporates in-warranty service bulletins at no extra charge
- Access to Boeing technical data and product knowledge
- Back to birth records
- No PMA parts

### Program features:

- Receive an overhauled and certified landing gear from an exchange pool maintained by Boeing
- Boeing manages all part, engineering and technical issues
- Applicable for all in-production models
