## Maintenance Training

# Maintenance Training Services

As the Original Equipment Manufacturer, we have unparalleled access to Boeing design engineering data. Because of that knowledge, we have the expertise to create the tools for airline operators to implement their own training program.

---

Boeing offers comprehensive and flexible maintenance training products and services to our customers. We focus on enabling our customers to train themselves by licensing them our assembled and context-rich training materials.

### Airplane models

- 717
- 737 Classic
- 747-400F/P

### Courseware

The training materials package provides assembled media for

- General Familiarization (Level 1 Systems) courses
- Ramp and Transit (Level 2 Systems) courses
- Line and Base (Level 3 Systems) courses including (as applicable)
  - Airframe, Powerplant, Electrical, Avionics
  - Part 66 B1, B2, B1/B2
  - Differences

Our training packages include the maintenance training manual, instructor presentation accessed through an interactive HTML curriculum, and student materials.

Our courses have been approved by regulators and can be submitted by an operator to their National Aviation Authority or regulatory entity for approval and used as the basis for course delivery. This ability enhances the timeliness and effectiveness of the product which, along with annual revisions, provides for current and accurate material for use by a training department.

### Annual revisions

Updates are not available.

### Equipment requirements

Materials are accessed through an HTML interface provided via Flash media.

### Pricing

Contact Boeing Flight Services for pricing information.
