Maintenance Training

Per Seat Training Courses

Per Seat courses provide flexible scheduling options for a broad variety of maintenance courses, enabling you to optimize your training schedule around the dynamics of your operation.

World-class Boeing maintenance training is available for scheduling on a per-seat basis. Many of our most popular courses, including General Familiarization, Aircraft Systems, and Structures for technicians, engineers, and inspectors can be scheduled for individuals or groups. Per Seat scheduling is a flexible and cost effective solution for airlines who wish to schedule smaller groups of students.

Our Per Seat maintenance courses include but are not limited to:

Model specific courses

- Airframe and Powerplant
- Electrical and Avionics
- BBJ Update

Specialty classes

- Aircraft Maintenance and Inspection
- Airplane Wing Systems
- Introduction to Boeing Aircraft Drawings

Structural Repair courses

- Corrosion Prevention and Control
- Designing and Repair for Engineers – Part I, Part II, and Part III
- Composite Repair Design for Airline Engineers

Scheduling

To register for our Per Seat maintenance courses visit www.myboeingtraining.com. Our website offers the convenience of 24-hour real-time scheduling.

Training locations

Per Seat courses are available at Seattle, Miami, London Gatwick, Brisbane, and Singapore training campuses.
