

## Boeing will...

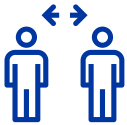

### **Provide a clean environment,**

including more frequent cleaning of “high-touch” areas and common spaces.

### **Offer voluntary temperature screenings**

at many manufacturing facilities should you feel unwell or are unable to check your temperature at home.

### **Promote safe work spacing**

to give you more physical space.

### **Provide hand washing stations**

to allow you to keep your hands clean throughout the day.

### **Provide timely, updated guidance**

through a number of channels, including leadership updates, BNN, Boeing Now app and the coronavirus intranet site.

### **Perform contact tracing**

to identify employees who may have been in close contact with someone who may have COVID-19 and place those employees on company-issued quarantine.

## We ask you to...

### **Wear a face mask**

and other protective equipment as needed to meet company guidance and standards.

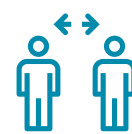

### **Wash your hands**

often with soap and water for at least 20 seconds.

### **Perform daily self-well being check**

to monitor yourself for symptoms. This includes taking your temperature at home daily before you come to work and if you feel unwell or have symptoms such as fever, cough, sore throat, muscle aches, or shortness of breath you should not come into work.

### **Maintain physical distancing**

between yourself and other people.

### **Call the Boeing Coronavirus Hotline**

at 800-899-6431 in the U.S. if you or a close contact are being tested or are confirmed to have COVID-19.

### **Clean as you go**

using the cleaning supplies we provide to keep your workspace clean.

**We'll  
get  
through  
this.  
Together.**
