Mr. Arthur Lenox
Environmental Remediation
The Boeing Company
Santa Susana Field Laboratory
5800 Woolsey Canyon Road
Canoga Park, CA 91304-1148

Dear Mr. Lenox:

APPROVAL OF AMENDMENT TO THE FINAL INTERIM SOURCE REMOVAL ACTION (ISRA) WORK PLAN INCLUSION OF A2LF-1 AND A2LF-3 AREAS WITH IN THE WATERSHED OF OUTFALL 009, CALIFORNIA WATER CODE SECTION 13304 ORDER (NPDES NO. CA0001309, CI NO. 6027, SCP NO. 1111, SITE ID NO. 2040109)

Los Angeles Regional Water Quality Control Board (Regional Board) staff has reviewed the October 14, 2009, document submitted to respond to comments to the Email amendment to the Final Interim Source Removal Action (ISRA) Work Plan. As stated previously Regional Board staff concur that the inclusion of A2LF-1 and A2LF-3 in the current ISRA action is appropriate.

Regional Board and Department of Toxic Substances Control staffs have reviewed the response to comments and the Work Plan amendment. The ISRA activity at A2LF-1 is targeting the removal of dioxins in the vicinity of Outfall 009. Work at A2LF-3 is targeting elevated concentrations of lead in the surface soils. The ISRA activity in these areas will result in an estimated volume of 153 cubic yards of soil removed and the depth of excavation at both areas is approximately 2 feet. The plans to proceed with the activities stipulated in the amendment to the Final ISRA Work Plan at A2LF-1 and A2LF-3 are approved based on the amendment to the work plan and the response to comments.

If you have any questions regarding this activity, please telephone Mr. Peter Raftery at (213) 576-6724 or Cassandra Owens at (213) 576-6750.

Sincerely,

Tracy J. Egoscue
Executive Officer

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
