

JANICKI INDUSTRIES, INC.

Award: Collaboration

Demonstrates commitment to working with Boeing to achieve a shared goal in innovation or process/product improvement.

Q: What does it mean to be recognized as a Supplier of the Year?

A: Our teams have worked alongside Boeing for many years to develop unique solutions. We are honored and thankful that the Supplier of the Year Collaboration Award recognizes our long-standing relationship and are excited about our continued partnership.

Q: How did your company get started?

A: Found in 1993 by the husband-and-wife team of Peter and Susan Janicki, the company initially built 5-axis computer-driven mills and machined hull molds and plugs for the marine industry. Janicki's innovative technology and attention to detail sparked the interest of the aerospace industry. The company began developing commercial aerospace tools and has expanded into fabricating composite and metallic parts, prototypes and assemblies.

Q: What should people know about your company?

A: Janicki is a privately-owned engineering and manufacturing company located in Washington and Utah. We design and build composite and metallic tools, parts, prototypes and assemblies for a myriad of industries. Our teams solve demanding challenges for our customers and are well-known for tackling large-scale, high-tolerance projects on tight deadlines.

Q: What characteristics do you most credit for your Supplier of the Year achievement?

A: Janicki's employees are team players and take pride in their work. Our teams are involved in each project from design to delivery and work to understand the challenges fully. We closely collaborate internally and externally with Boeing to navigate roadblocks and create innovative solutions.

YEARS IN OPERATION

Q: What is your company vision/mission?

A: Janicki is dedicated to the continual improvement of our products and quality management system to ensure we deliver quality products that meet or exceed our customers' requirements. Janicki will continue to be an engineering-led company focused on solving technical challenges and the advancements of the composites industry.

Q: How do you inspire your employees?

A: Janicki's products can be found on land, sea, air and space, and our employees often feel inspired knowing what they work on has gone where very few have before. Our company culture is strong, and employees feel appreciated and motivated by each other.
