YEARS AS A BOEING SUPPLIER

**Q: What has been the proudest moment in your company's history?**

A: Dynamatic has been a pathfinder and a pioneer in developing aerospace capabilities in country. Dynamatic has created an unique model of US-India collaboration and won several awards starting with Boeing P-8 in the early 2009-10. The biggest win was with Boeing Chinook CH-47 for building Aft Pylon and Cargo Ramp, major structures of the Heavy Lift Helicopter. This project was a major step in building a large ecosystem of capabilities within the company as well as supply chain. This project also marked the start of "Make in India" program for Boeing in India. Recently, Dynamatic also was awarded the contract for manufacturing assemblies for Boeing's advanced fighter, the F-15EX Eagle II. This boosts the "Atmanirbhar Bharat" program and strengthens US-India collaboration on aerospace and defence industrialisation.

**Q: What is your company vision and mission?**

A: Our vision is to be a global leader in the design and manufacture of highly engineered aerospace, hydraulic and metallurgical products; to grow as a network of innovative businesses that will focus on serving customer needs. Our mission is to enhance the safe, nurturing, learning and empowering environment for all employees, and motivate them to act like owners by going the extra mile; exceed customer expectations by providing high-valued products and services; and enhance wealth for stakeholders.

## LOCATION:

- ❖ Bangalore, India (Headquarters)
- ❖ Bristol & Swindon, United Kingdom
- ❖ Erla, Germany

**Q: How does your company exemplify manufacturing excellence?**

A: It is very Dynamatic is a quality-focused enterprise. We launched a 'DOET' Dynamatic Operational Excellence and Transformation, which are principles based on idealistic behavior. This is a way of life that helps us shape the company's culture, values, quality, safety, on-time delivery and employee morale. As time passes, the definition of perfection changes. This is where the quest of excellence is founded on continuous improvement - the concept of all the employees working on a common goal to achieve zero accidents, pursuing a culture of safety, secure work place, and ensuring health and stability for all employees.
