

Partnership with Latin America and the Caribbean

SUPPORTING ECONOMIC GROWTH

279 

In Latin America, the number of Boeing employees reaches **279**, including our subsidiary, **Boeing EnCore Interiors**—an aerospace interiors company in Mexico.

71 suppliers

Boeing has **42 direct suppliers and 29 indirect suppliers** in 3 Latin American countries that manufacture structures, wings, and propulsion/aerospace commodities.

2,530 

Boeing expects demand for **2,530 new airplanes** from Latin America and the Caribbean over the next two decades.

LEADING SUSTAINABILITY

Since 2016, Boeing has assisted Aeromexico lead data analysis initiatives and implement digital tools to reduce fuel burn and fuel emissions such as the Flight Deck Advisor, Flight Planning and Aviator Services, and the Fuel Dashboard.

\$2 million

With the Roundtable on Sustainable Biomaterials, Boeing invested **\$2 million** in initiatives that maximize social, economic and environmental benefits to local Brazilian communities developing feedstock for SAF production.

Boeing created a **Sustainable Aviation Biofuels Roadmap** for Brazil by conducting a national assessment of the challenges and opportunities associated with SAF development and commercialization.

GROWING OUR FLEET AND SERVICES

Boeing has defense products in **5 countries** ranging from helicopters, harpoon missiles, UAVs, biplane trainers, tanker transports, light-attack bombers and satellites.

668 airplanes

There are **668 Boeing commercial aircraft** in service in Latin America.

Boeing has assisted Aeromexico lead data analysis initiatives and implement **digital tools** to reduce fuel burn and fuel emissions. Aeromexico is one of Boeing's top-performing partners in operational efficiency.

INVESTING IN INNOVATION

Since opening Boeing Research & Technology Brazil (BR&T-B) in 2014, Boeing has achieved 35 invention disclosures towards patents.

BR&T-B has led projects in autonomy and autonomous airspace, fleet operations, next-generation metals, metals and composite recycling, aeroacoustics, biofuels, remote sensing, crowd behaviors, and cabin comfort.

ENGAGING WITH THE COMMUNITY

Boeing has donated over **\$7 million** in charitable contributions to 9 Latin American countries since 2008, including \$900K that was used to advance STEM Education in 2020.

Boeing works with the **Pan-American Development Foundation** within 8 Latin American countries to train teachers and challenge students through STEM Americas Academies.

Boeing collaborates with two non-profit partners in Brazil—**Educando** and the **Ayrton Senna Institute**—to enhance diversity, proficiency, and interest in STEM careers.
