Boeing’s Focus in Oregon

We strive to place greater emphasis on preparing individuals for success through life-long learning. With a focus on collective, integrated and active learning, our goal is to help build the capacity of individuals and communities to succeed. We do so by developing tomorrow’s innovators through investments in STEM education required in today’s modern workplace; by aiding our military veterans and their families transitioning into the civilian workforce; and by being a corporate leader in the communities where our employees live and work.
