We aim to be recognized as the premier metal fabricator in the country by providing individualized product solutions while ensuring that we grow in a way that benefits all WB Industries employees.

48
YEARS IN
OPERATION

Q: What has been the proudest moment in your company?

A: We designed, engineered, fabricated, and installed (2) 200' long aluminum platforms that were used in Boeing's Michoud, La. facility to build the Artemis rocket. This program was a defining project for our company, giving us the confidence to aggressively pursue more of these higher value, mission critical projects.

Q: Why is it important to be considered a small, diverse business or to champion diversity on your team?

A: As a Minority Supplier MBE/DBE and SBE, we are committed to diversity at WB Industries. We believe this is the best approach to facilitate an environment that has limitless growth potential through a variety of different ideas and perspectives.
